Roger is a hard worker, and he spends most of his nights bowling or playing volleyball. One weekend, his wife decides that he needs to relax a little and take a break from sports, so she takes him to a strip club.
The doorman at the club spots them and says "Hey Roger! How are you tonight?"
His wife, surprised, asks her husband if he has been here before. "No, no. He's just one of the guys I bowl with."
They are seated, and the waitress approaches, sees Roger and says "Nice to see you, Roger. A gin and tonic as usual?"
His wife's eyes widen. "You must come here a lot!"

"No, no" says Roger "I just know her from volleyball."
Then a stripper walks up to the table. She throws her arms around Roger and says "Roger! A table dance as usual?"
His wife, fuming, collects her things and storms out of the bar.
Roger follows her and spots her getting into a cab, so he jumps into the passenger seat.
His wife looks at him, seething with fury and lets Roger have it with both barrels.
At this, the cabby leans over and says "Sure looks like you picked up a bitch tonight, Roger!"

There once was a priest who had to spend the night in a hotel. He asked the hat check girl to come up to his room for dinner. After a while he started making passes, when she stopped him and reminded him he was a holy man.
"It's OK," he replied, "it's written in the Bible."
So after a wild night of sex, the hat check girl asked to see where in the Bible it says it's okay to have wild, passionate sex.
The priest picks up the Bible off the dresser opens to the first page where someone wrote in pencil:
"The hat check girl puts out!"

A Russian, an American, and a Blonde were talking one day.
The Russian said, "We were the first in space!"
The American said, "We were the first on the moon!"
The Blonde said, "So what? We're going to be the first on the sun!"
The Russian and the American looked at each other and shook their heads.
"You can't land on the sun, you idiot! You'll burn up!" said the Russian.
To which the Blonde replied, "We're not stupid, you know. We're going at night!"

"My god! What happened to you?" the bartender asked Kelly as he hobbled in on a crutch, one arm in a cast.
"I got in a tiff with Riley."
"Riley? He's just a wee fellow," the barkeep said, surprised.
"He must have had something in his hand."
"That he did," Kelly said. "A shovel it was."
"Dear Lord. Didn't you have anything in your hand?"
"Aye, that I did -- Mrs. Riley's tit." Kelly said. "And a beautiful thing it was, but not much use in a fight."

I've got trouble with the wife again - she came into the bar
looking for me and I asked for her number.

Witnesses say a man at a popular diving area at a lake near Diana, NY didn't use the usual spot to dive into the water, but rather a much higher spot. It was also farther from the water.
When Alexander Chappell, 21, jumped, he hit the rocks at the edge of the lake and was killed.
Chappell was a senior in mechanical engineering at Clarkson University - you'd think he'd know better?

Not realizing our mother had left some leftover turkey in our oven's broiler, my sister, 19, turned the oven on to bake cookies. Once the oven was hot, she put in the cookies and came back to check on them ten minutes later. When she
pulled open the oven door, flames shot out, and my sister shouted, "Mom! Fire!" as she closed the door. Immediately our mother called the fire department and rushed all of us out of the house.
The firefighters were over in a flash, and they quickly hosed the oven down with some foam, then helped us clear the house of smoke. As one of the young firemen was leaving, he turned to my mother and said, "Your daughter is cute. I would ask her
out, but I only date women who can cook.

You mentioned 'no bank account', not me.I was talking about
having nothing in an account, which would obviously be written
as 0 - zero or nothing.0 can never be counted as anything more
than zero in a bank account.

A number of Primary Schools were doing a project on "The Sea". Kids were asked to draw pictures, or write about their experiences. These are some of the results:

This is a picture of an octopus. It has eight testicles. (Kelly age 6)
If you are surrounded by sea you are an Island. If you don't have sea all round you, you are in continent. (Wayne age 7)
I think sharks are ugly and mean, and have big teeth, just like Emily Richardson. She's not my friend no more. (Kylie age 6)
A dolphin breaths through an arsehole on the top of it's head. (Billy age 8)
Some fish are dangerous. Jelly fish can sting. Electric eels can give you a shock. They have to live in caves under the sea where I think they have to plug themselves into chargers. (Christopher age 7)
When you go swimming in the sea, it is very cold, and it makes my willy small. (Kevin age

6)
When me and Sarah went to the sea side in the summer holidays, we hid in the sand dunes and watched my big sister doing it with her boyfriend. It was fun. (Lauren age 7)
A submarine goes under the water like a fish, but it has lots of seamen inside. (Emma age 5)
When I grow up, I want to be captain of a big ship, and have lots of sailors (Valerie age 6)
Divers have to be safe when they go under the water. Two divers can't go down alone, so they have to go down on each other. (Becky age 8)
On holiday my Mum went water ski-ing. She fell off when she was going very fast. She says she won't do it again because water shot up her fanny. (Julie age 7)

Yes we were. An empty glass is not nothing. However the reading on beer level is "0".

You are just being very pedantic. No, a brain would not do that,
that's pretty obvious don't you think? I would have thought you
would have the sense to see what I mean't.

Zero is important in both cases. If you're counting anything and miss out zero, going directly from -1 to 1, you've made an error. You could be counting how much money you owe me, which is changing as you give me ï¿œ1 coins. Going straight from -1 to +1 would do me out of a quid.

It is not "more than" nothing, it is "different to" nothing.

For centuries, the English have had a love affair with all types of hunting. Early one morning, a fellow was blasting away at a clump of brush on a grouse hunt.
Suddenly an outraged gentleman appeared and said "See here old man, you almost shot my wife with that volley."

The hunter, properly shamed replied, "So sorry old chap. Here, have a go at mine, over there."

Dan married one of a pair of identical twin girls. Less than a year later, he was in court filing for a divorce. "OK," the judge said, "Tell the court why you want a divorce."
"Well, your honor," Dan started, "Every once in a while my sister in law would come over for a visit, and because she and my wife are so identical looking, every once in a while I'd end up making love to her by mistake."
"Surely there must be some difference between the two women." the judge said.
"You'd better believe there is a difference, your honor. That's why I want the divorce." he replied.

Lord, grant me the serenity to accept the things I cannot change,
the courage to change the things I can,

I remember your brother Jimmy, crying one summer's day,
"Why do you cry, young Jimmy?" I heard your granddad say.
"'Cause I can't do what the big boys do, that's why I cry," said Jim,
"Move over then," said your granddad, and he sat down and cried with him.

A Glesga burd walks into the local dry cleaners. She places a garment on the counter.
"Ah'll be back ra morra efternin tae pick up ma dress." she says.
"Come again?" says the clerk, cupping his ear.
"Naw" she replies. "This time it's mayonnaise."

For centuries, the English have had a love affair with all types of hunting. Early one morning, a fellow was blasting away at a clump of brush on a grouse hunt.
Suddenly an outraged gentleman appeared and said "See here old man, you almost shot my wife with that volley."
The hunter, properly shamed replied, "So sorry old chap. Here, have a go at mine, over there."

2289. FCC's excuses are a bunch of hogwash

This is NOT the ham I was talking about in my other posts. So there
IS
definitely MORE than
one instance (multiple instances) of this happening.

The FCC's excuse that hams with hoa restrictions "can just operate
mobile or portable" is
a bunch of hogwash and doesn't even hold water.

You do get fined by hoas if you operate a cb or ham radio mobile or
portable.

And several people have already said that the FCC has already stated
several times that the FCC does not have any authority over it.

Doesn't this mean that the FCC has committed the crime of fraud by
fraudently saying hams with
hoa restrictions can just operate mobile or portable?

So if you can't legally operate your cb or ham radio from home and
also can't
legally operate it mobile or
portable, how do you operate it?

click on the following link and read it.

http://forums.qrz.com/showthread.php?t=139676&page=9

p.s. I would have crossposted this to the hoa newsgroups also, but
every hoa newsgroup
I seen was "restricted to approved members only".

typical.

Here's a copy of the Sarah Palin heritage letter. You can use it to depress all your friends.

Based on Jewish tradition that makes one Jewish if born to a mother of Jewish ethnic decent, Sarah Palin is Jewish, though she touts a mask of evangelical Christianity. Sarah Palin's mother, Sally Sheigam, was of Lithuanian Jewish heritage and so were both of her mother's parents, Louise Sheigam and Shmuel Sheigam. Her father, Chuck Heath, also comes from Jewish blood because his mother, Beatrice Colem an, was of Jewish decent. Further information on Governor Palin's ancestors can be found in the vital records in the Lithuanian State Historical Archives in Vilnius http://www.archyvai.lt/archyvai/index.jsp

The Archives holds birth, marriage, divorce, and death records for the Lithuanian Jewish community from 1851 until 1915 when the Jews were required to leave the country because of World War I. They are in 18th Century Cyrillic script and Yiddish. Many of these records include the mother's maiden name and town of registration. Palin's maternal grandfather, Schmuel Sheigam, was a Lithuanian Jew, born in 1912 in Vilkaviskis, Lithuania, The Sheigams' grandmother was a Jewess named Gower. At the Ellis Island Immigration Center, the name was entered as Sheeran, instead of Sheigam, a standard practice when immigration officers were unable to understand the pronunciation of non-English speaking immigrants. They are buried in the Jewish cemetery at Budezeriai.

Noooooooooooooo! Your mind is so twisted that you can't determine what's GOOD or BAD anymore.. The original post indicated that it was a little OT. It may be a little OT - but it is a whole bunch of your nonsensical constant barraging of the garbage that you continually post.. AND this is not HATERED - This was an explanation of how it came to be.. AGAIN - Your mind is so twisted that you can't determine what's GOOD or BAD anymore. Once AGAIN you have concluded that you are the "asshole" who keeps posting the garbage posts, and accuses everyone else of doing it! Are you trying to emulate the PURITANS' ?? If so I will start to call and refer to you as a real PUTZ !!

IT'S AMAZING on just how many Xposts you do with your garbage posts!

*J�lleen kerran on syyt� tuoda esille sit� faktaa, ertt� ydinvoima on menneisyyden tekniikkaa ja t�llaiset alla olevat mm. p��st�tt�m�n polton laitokset tulevat VARSIN nopsaan syrj�ytt�m��n ydinvoiman kaikilla keskeisill� sektoreillaan. Ja hyv� niin! On suorastaan h�vyt�nt� miten systemaattisesti maamme ydinmonopolitiedotus pimitt�� kansalta niit� selke�sti parempia energiavaihtoehtoja, joista Suomessa puhuminen on liki maanpetturuutena tuomittu. Onneksi maailmalla on vapaampaa puhua selke�sti ydinvoimaa paremmista ratkaisumalleista. Kuten t�st�:

"Vattenfallin hiilidioksidin talteenottoprojekti etenee Saksassa. Yhti� aikoo asentaa 500 megawatin voimalaan hiilidioksidin talteenoton (ccs, carbon capture and storage) demolaitoksen vuoteen 2015 menness�. Talteenottolaitos otetaan k�ytt��n J�nschwalden voimalaitoksella Brandenburgissa. Demonstraatiolaitos maksaa miljardi euroa. Sit� edelt�v� 30 megawatin pilottilaitos k�ynnistyy Swartze Pumpessa Lausitzissa t�n� kes�n�.

*On suorastaan P�YRISTYTT�V�� miten ydinalamme on sensuroinut t�llaisen keskeisen ilouutisen. Ydinvoimalle on olemassa j�lleen kerran valovuosia saastaista ja kallista vaihtoehtoaan selke�sti ekologisempi ja kest�v�n kehityksen vaihtoehto. Kun mainitulla piiputtomilla laitteilla poltetaan bioenergiaa saadaan maailman ensimm�inen laitoskokonaisuus, joka lis�ksi POISTAA CO2 j��m�� suoraan ilmasta! Keksint� tulee muuttamaan jatkossa siis KOKO energiasektorin kes�st� 2008. T�m�n j�lkeen vain ja ainoastaan uraanikaivosten energianegatiivisesti tuotetut uraanit syyt�v�t kaivuudieseleist��n alati kasvavasti pienhiukkas-, CO2 moninkertojaan ja ennen kaikkea m��r�tt�m�t s�teilev�t ikiraskasmetallisaastap�lyt ja liosmyrkkyns� vuosimiljoonaksi biotooppejamme tuhoamaan. Ydinvoimalle j�� h�pe�paaluunsa alati huononevine uraanimalmioineen pysyv� sylkykupin paikka kun kaikki MUUT energiamuodot muuttuvat p��st�tt�m�ll� poltolla 99,9% p��st�tt�miksi! T�m� on keskeist� ymm�rt�� nyky-ydinvoimakeskusteluissamme!

Siihen Vattenfall kertoo investoineensa 70 miljoonaa euroa. "Ratkaisemme hiilidioksidip��st�jen ongelman", Vattenfall Europen suomalainen johtaja Tuomo Hatakka julisti Berliiniss� viime viikolla yhti�n tiedotteen mukaan. H�n totesi yhti�n yhdeksi tavoitteeksi varmistaa Saksan t�rkeimm�n polttoaineen, hiilen k�ytt� maan energiantuotannossa. J�nschwaldessa sijaitsee kuusi 500 megawatin voimalayksikk��. Vattenfall asentaa sinne happipolttomenetelm��n (oxyfuel) perustuvan laitoksen, jota erityisesti Vattenfall on kehitt�nyt.

Siin� hiilen polttoprosessiin puhalletaan puhdasta happea, jonka avulla hiilidioksidi saadaan nestem�isen� ulos polttoprosessin aikana. Hiilidioksidia ei p��stet� lainkaan ilmaan, vaan se varastoidaan nestem�isen�. Lopulta nestem�inen hiilidioksidi kuljetaan putkilla tai

tankkereilla maanalaisiin varastoihin. Erotetun hiilidioksidin Vattenfall kertoo hautaavansa Sachsen-Anhaltin osavaltiossa sijaitseviin entisiin maakaasul&#65533;hteisiin. Yhteisty&#65533;t&#65533; se tekee ranskalaisen kaasuyhti&#65533; Gaz de Francen kanssa. Vattenfall vakuuttaa ccs:n etenev&#65533;n sek&#65533; teknisesti ett&#65533; bisneksen&#65533;, mutta alalta puuttuu lains&#65533;&#65533;d&#65533;nt&#65533;. Yhti&#65533; vaatiikin poliitikoilta nopeasti hiilidioksidin kuljetuksia ja talteenottoa koskevaa lains&#65533;&#65533;d&#65533;nt&#65533;&#65533;.

Shortwave radio enthusiasts have a right to enjoy a newsgroup
which was established for them and is supposed to be dedicated to
shortwave radio information.

And they have a right to do so without wading through all the off
topic garbage you post and it isn't incumbent upon them to filter
obnoxious morons like you out, also many don't have the capability to
do so.

Start behaving like a responsible adult and filter yourself by posting
your nonsense in the appropriate newsgroups.

2484. Midieval Role Playing for misfits

Mark and Gav take quite seriously their childish role-playing of dressing up as midieval characters.
Gav designs and peddles period costumes while Mark maintains that he has been "knighted" by these role-playing adults who cannot cope in the real world.
Unfortunately, Mark can no longer ride his mighty, nostril-flared white stallion while slaying imaginary dragons and rescuing flea market damsels in distress. Why? The local K-Mart took the twenty-five cent per ride electric pony from their store, leaving Mark afoot.

Whatever will become of the poor damsels? Who will be Lady Avagaye bas Ysaac's Knight in Shining Armor now?

If you wouldn't have abused your other news readers and gotten kicked off,
you'd be able to see binaries, Morkins.
It is YOU who screwed up. Now all you have left are a few phony Google

KP5, DESECHEO ISLAND (Press Release #2, November 23rd - DXpedition Dates Announced).

"The U.S. Fish & Wildlife Service has notified the team that February 12-26, 2009, will be the dates allocated for the radio operation.
These dates are coordinated with other USFWS research activities scheduled on other parts of Desecheo Island as well as scheduling USFWS security personnel for the camp.
Fifteen operators will be allowed on the island at any given time. A total of 6-8 stations will be operational, including 160-6 meters.

A reconnaissance trip to Desecheo is scheduled for Friday, December 19th. Three team members, USFWS personnel and an UXO (unexploded ordnance) expert will sweep and clear the assigned area of UXO and other hazards. There will be no radio operations.

The 15-man team will assemble in Puerto Rico on February 8, 2009, for mandatory UXO training. The next three days will include team operations training, and last minute preparation and staging of the several tons of equipment for transport. On February 12th, landing will commence and two stations will be immediately activated. Likewise, stations will continue to operate until the final moments before departure on February 26th.

Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week.

The team has been diligently planning antennas and propagation paths to take advantage of every possible band opening to Asia, where Desecheo is #2 on the Most Wanted List and to Europe, where it is #3 on the Most Wanted List.

Contributions are being solicited. To assist us and for the latest news, please go to the team's website: http://www.kp5.us
